

## CASE STUDY

**Client:** Iraj Taghi Custom Homes

**Project:** 1,200 sq.ft. garage

**Coating:** Xpedite Ultra Premium

**Location:** Houston, Texas

### Job Description

We made sure humidity was below 2 percent before we started. All surfaces were abraded with diamond heads to expose concrete. All cracks and holes were sealed with an epoxy compound. A base coat was applied and heavily broadcasted with chips with a four color mix selected by client to harmonize with interior and exterior decor. The following day we applied a clear topcoat. Job was done in two days.
